

# QuickStart EDI

***A lower cost EDI option offering full control.***

Launching a new EDI software solution on your own can be challenging especially when the business is expecting a rapid return on investment and fast, tangible results.

You've got your EDI expertise, but what if you could ramp up faster and produce results in two to three weeks? When you choose EDI/HQ, you've got options with our QuickStart EDI option.

## **5 Scenarios Where QuickStart is the Perfect Solution**

*Your company...*

1. is already performing EDI
2. possesses a solid understanding of EDI transactions, flow and requirements
3. has the ability to map in a translator
4. employs a project manager or sponsor that will help guide the process
5. Have an EDI department or group of individuals that are responsible for EDI

<b>Solution</b>	<b>Services</b>
